

# MD ENERGY ADVISORS

## Morgan State University

### Opportunity

Morgan State University is a public historically black (HBCU) research university serving an average of 7,700 students. In 2020, Siemens was selected to enter into a Master Service Agreement to deliver cost effective energy savings and generation solutions at the Morgan State University campus.

### Our Solution

In conjunction with Siemens, MDEA is responsible for conducting in-person site visits to inspect campus building equipment, inventory, and logs before and after project implementation for the campus wide Energy Performance Contract.

“We are honored to support Morgan State University in paving its way towards energy decarbonization. MD Energy Advisors has played an important role in the project and consistently demonstrates value by delivering results that meet or exceed expectations.”
